HERE'S THE PICTURE

This is your chance to capture the spirit and vibe of Greenwich on film. The photogenic faces, facets and façades of our town are abundant. Whether you are a serious amateur photographer, a weekend shutterbug or a beginner with a good eye, show us your stuff.

WHAT TO FOCUS ON

The theme is the People, Places and Animals of Greenwich, with all shots taken in Greenwich. Set your sights on Greenwich people at work, at play, young, old and in-between. Snap that adorable pet doing something cute. Or take pictures of identifiable Greenwich places, from woods to water. Look for those uncommon sites; catch that different perspective. We want to see the town through your viewfinder—who or what you think best exemplifies the character and spirit of Greenwich. If animals are featured in the photo, please identify their owners or the location where they were photographed.
